FACE AND BODY REJUVENATION

Post Procedure Instructions for Spider Vein Treatment with Vein Gogh

- You may resume normal activities and go back to work immediately
- It is unlikely you will need to, but, if desired, you may take over-the-counter pain medications such as Tylenol or Ibuprofen
- Avoid scratching the treated areas to help avoid infection or scarring
- You may use cool compresses as needed
- Refrain from wearing makeup for 4 hours
- Protect the treated areas from sun exposure by using sunscreen/sun block with Zinc and Titanium Dioxide.
- You may apply Arnica Gel or Aquaphor twice a day to help with healing
- You may also use Aloe Vera or a gentle daily moisturizer
- Do not use Vitamin C or Retin A while healing.
- You may have redness or small dots/lines for 1-2 weeks while healing. In some cases, these may take up to 2 months to resolve. Do not pick at them as that could cause scarring or infection.
- Follow-up appointment in 2 months if you desire additional treatment
- Call or text anytime with any questions or concerns, especially with signs of infection such as fever, chills, blistering or drainage at the treatment site.
